github.com/jogren/palette-picker   palette-picker-sfjo.herokuapp.com

Palette Picker is a full stack web app focused on CRUD endpoints, continuous integration, server-side testing, and effective code reviews.

TECH: Node, Express, Knex, PostgreSQL, React, Redux, SASS, Jest, Enzyme

EXPERIENCE

Code Coach

theCoderSchool, November 2019 to Present

- Mentor and teach individual and groups of kids to code in JavaScript, Python, Scratch, and Snap.

Software Engineering Student

Turing School of Software and Design, April 2019 to November 2019

- Invested over 2000 hours across seven months in becoming a job-ready frontend software developer.

Product Marketing Specialist

Evolve Vacation Rental, June 2018 to April 2019

- Wrote data-driven, creative content to effectively market domestic and international properties, generating revenue of $2.5 million.
- Utilized SEO keywords, A/B testing, traveler personas/profiles, and performance metrics to enhance click rate and visibility.

Account Manager / English Teacher

Maximo Nivel, Costa Rica & Guatemala, June 2016 to February 2018

- In July 2017, was promoted to Account Manager and managed (in both English and Spanish), 15 to 22 accounts with up to 75 volunteers.
- Onboarded new clients and maintained strong relationships with exceptional service (near perfect feedback each month).
